PROFILE SUMMARY

Versatile IT Professional with extensive experience spanning infrastructure management, service reliability, and technical support. Currently pursuing an MSc in Cyber Security and Digital Forensics to complement a strong operational background at KRA. Demonstrated success in leading major incident responses, automating operational workflows, and executing seamless cloud migrations. Combines hands-on technical troubleshooting with strategic skills in performance management, disaster recovery, and network security to drive efficient and secure IT service delivery.

CORE COMPETENCIES

- Cloud Migration & Hybrid Work Enablement
 - IT Service Management (ITSM) & Helpdesk Support
 - IT Asset Standardization & Procurement
 - Performance Management & Operational Reporting
 - Cross-functional Team Coordination
-

WORK EXPERIENCE

ICT Operation Team | Kenya Revenue Authority

Jan 2026 – Present

Provide critical administrative and technical support to ensure smooth day-to-day operations of the ICT infrastructure and service delivery teams.

- Administrative Support: Submit weekly attendance registers for the division, ensuring accurate record-keeping for operation team.
- Performance Management Coordination: Collect, track, and consolidate Performance Contracts (PCs) from SA&DM staff, supporting KRA's results-based management framework.
- Operational Liaison: Act as a point of contact between technical teams and management for routine operational updates, documentation, and workflow coordination.
- Documentation & Reporting: Assist in preparing operational reports, maintaining digital records, and supporting other operation team.

Infrastructure Management, Service Monitoring | Kenya Revenue Authority May 2025 to Jan 2026

Check reliability, availability, and performance of Network & services platforms processing transactions across all regions

- Lead major incident response, post incident reviews, and preventative reliability improvements
- Drive automation of operational workflows and reduce recurring production issues
- Improve observability strategy including dashboards, alerts, and SLO alignment
- Partner with engineering and infrastructure teams to strengthen platform resilience and compliance
- Mentor engineers and elevate operational maturity across service operations

Network ICT Support | Postal Corporation of Kenya Jan 2020 to Dec 2020

- **Infrastructure & Cabling:** Assisted in physical network deployments, including running and terminating Cat5e/Cat6 cables, organizing patch panels, and properly racking networking equipment.
 - **Basic Network Security:** Configured router firewalls, set up secure WPA2/WPA3 guest networks, and implemented basic network segmentation to protect client data.
 - **Troubleshooting:** Resolved IP conflicts, DNS issues, and bandwidth bottlenecks to ensure stable and fast internet connectivity for remote workers and small offices.
-

PROJECTS

Cloud Migration & Remote Work Enablement (Support Services Focus)

- Led the cloud migration project for a local business, transitioning 20+ users from an aging on-premise file server to Microsoft 365.
Outcome: Enabled seamless, secure hybrid-work capabilities, enforced Multi-Factor Authentication (MFA) across all accounts, and reduced local hardware maintenance costs by eliminating the physical server.

IT Onboarding & Asset Standardization (Efficiency/Helpdesk Focus)

- Standardized IT hardware procurement and created a streamlined software provisioning process for a growing local business.
Outcome: Reduced new employee IT onboarding time from 6 hours to 90 minutes, ensuring standardized security configurations and decreasing recurring hardware-related helpdesk tickets by 30%.

Automated Backup & Disaster Recovery Implementation (Support & Security)

- Designed and deployed a comprehensive 3-2-1 automated backup solution for a financial services client using a hybrid cloud-NAS approach.
 - Outcome: Safeguarded over 500GB of critical client data, reducing potential disaster recovery time from an estimated 'days' to under 4 hours, ensuring business continuity.
-

CONSULTANCY ROLES

Network Services| Techzen Computers

Feb 2022 – Nov 2023

- **Network Deployment:** Designed and set up Small Office/Home Office (SOHO) networks. Configured routers, managed switches, and optimized wireless access points (WAPs) to eliminate Wi-Fi dead zones.
- **Infrastructure & Cabling:** Assisted in physical network deployments, including running and terminating Cat5e/Cat6 cables, organizing patch panels, and properly racking networking equipment.
- **Basic Network Security:** Configured router firewalls, set up secure WPA2/WPA3 guest networks, and implemented basic network segmentation to protect client data.
- **Troubleshooting:** Resolved IP conflicts, DNS issues, and bandwidth bottlenecks to ensure stable and fast internet connectivity for remote workers and small offices.

IT Support Services| Oscoco Tech Solutions

Sep 2019 – Apr 2021

- **Helpdesk & Technical Support:** Delivered Tier 1 and Tier 2 remote and on-site support for hardware, software, and peripheral issues. Diagnosed and resolved OS-level problems (primarily Windows 10/11) and performed software installations.

- **System Maintenance:** Conducted routine PC health checks, disk cleanups, antivirus deployments, and automated data backups to minimize client downtime.
- **User Management:** Assisted clients with setting up and managing email accounts, cloud storage (e.g OneDrive, Google Drive), and basic user access controls.
- **Hardware Procurement & Setup:** Advised clients on cost-effective hardware upgrades based on their needs, assembled custom desktop builds, and configured new laptops for immediate use.

EDUCATION

The Open University of Kenya Master of Science in Cyber Security and Digital Forensics: Present	Makueni, Kenya May 2026 – May 2028
Jomo Kenyatta University of Agriculture and Technology BSC Information Technology: 2 nd Class Lower Division	Nairobi, Kenya Jan 2021 – Dec 2023
Jomo Kenyatta University of Agriculture and Technology Diploma Information Technology: Credit	Nakuru, Kenya Jan 2017 – March 2019
Adept College of Professional Studies KNEC Diploma In Accountancy: Pass	Nakuru, Kenya Jan 2017 – Jan 2019
